

Pharmacogenetics Repository

The principal researchers
for this study are Drs. Alexa
Pagano & Laura Ramsey.

Children's Mercy
KANSAS CITY

Researchers at Children's Mercy
want to learn how to better
match children with medications
and doses that are safer and will
work for them.

Research is always voluntary!

What would happen if my child took part in the study?

Your child would have a sample
(saliva, blood, urine) collected either
at home or during a clinic visit to
Children's Mercy Kansas City.

Would the study be a good fit for my child?

This research study is for:
Anyone who has had or will
have genetic (DNA) testing
done through Children's
Mercy.
